TABLE OF CONTENTS

		Page No.
Foreword		iii
CHAPTER 1.	ADMINISTRATIVE	
Section 1.	Scope	1
1.	Purpose	1
2.	Distribution	1
3.	Cancellation	1
4.	Existing Procedures	1
5.	Types of Procedures	1
6.	Word Meanings	1
7.-119	Reserved	
Section 2.	Eligibility, Approval, and Retention	1
120.	Eligibility	1
121.	Requests for Procedures	1
122.	Approval	2
123.	Retention and Cancellation	2
124.-129.	Reserved	3
Section 3.	Responsibility and Jurisdiction	3
130.	Responsibility	3
131.	Jurisdiction	3
132.-139.	Reserved	3
Section 4.	Establishment	3
140.	Formulation	3
141.	Nonstandard Procedures	3
142.	Changes	4
143.-149.	Reserved	4
Section 5.	Coordination	4
150.	Coordination	4
151.	Coordination Conflicts	4
152.-159.	Reserved	4

Section 6.	Identification of Procedures	5
160.	Identification of Procedures	5
161.	Straight-In Procedures Identification	5
162.	Circling Procedure Identification	5
163.	Differentiation	5
164.-169.	Reserved	5
Section 7.	Publication	5
170.	Submission	5
171.	Issuance	5
172.	Effective Date	5
173.-199.	Reserved	5
CHAPTER 2.	GENERAL CRITERIA	
200.	Scope	7
201.-209.	Reserved	7
Section 1.	Common Information	7
210.	Units of Measurement	7
211.	Positive Course Guidance	7
212.	Approach Categories	7
213.	Approach Category Application	8
214.	Procedure Construction	8
215.	Controlling Obstacle(s)	8
216.-219.	Reserved	8
Section 2.	En Route Operations	8
220.	Feeder Routes	8
221.	Minimum Safe Altitudes	8
222.-229.	Reserved	10
Section 3.	Initial Approach	
230.	Initial Approach Segment	10
231.	Altitude Selection	10
232.	Initial Approach Segments Based on Straight Courses and Arcs with Positive Course Guidance	10
233.	Initial Approach Segment Based on Dead Reckoning (DR)	11
234.	Initial Approach Segment Based on a Procedure Turn	13
235.	Initial Approach Segment Based on a High Altitude Teardrop Penetration	14

236.	Initial Approach Course Reversal Using Noncollocated Facilities and a Turn of 120° or Greater to Intercept the Inbound Course	15
237.-239.	Reserved	16-1
Section 4.	Intermediate Approaches	16-1
240.	Intermediate Approach Segment	16-1
241.	Altitude Selection	16-1
242.	Intermediate Approach Segment Based on Straight Courses	17
243.	Intermediate Approach Segment Based on an Arc	18
244.	Intermediate Approach Segment within a Procedure Turn (PT)	18
245.-249.	Reserved	20-1
Section 5.	Final Approach	19
250.	Final Approach Segment	19
251.	Visual Portion of the Final Approach Segment	19
252.	Descent Gradient	21
253.-259.	Reserved	21
Section 6.	Circling Approach	21
260.	Circling Approach Area	21
261.	Circling Approach Area Not Considered for Obstacle Clearance	21
262.-269.	Reserved	21
Section 7.	Missed Approach	22
270.	Missed Approach Segment	22
271.	Missed Approach Alignment	22
272.	Missed Approach Point (MAP)	22
273.	Straight Missed Approach Point	22
274.	Straight Missed Approach Obstacle Clearance	22
275.	Turning Missed Approach Area	23
276.	Turning Missed Approach Obstacle Clearance	26
277.	Combination Straight & Turning Missed Approach Area	27
278.	End of Missed Approach	29
279.	Reserved	29

Section 8.		Terminal Area Fixes	29
	280.	General	29
	281.	Fixes Formed by Intersection	29
	282.	DME Fixes	29
*	283.	Fixes Formed by Radar	29 *
	284.	Fix Displacement Area	29
	285.	Intersection Fix Displacement Factors	29
	286.	Other Fix Displacement Factors	31
	287.	Satisfactory Fixes	31
	288.	Using Fixes for Descent	33
	289.	Obstacles Close to a Final Approach or Stepdown Fix	34
Section 9.		Holding	35
	290.	Holding Patterns	35
	291.	Alignment	35
	292.	Area	35
	293.	Obstacle Clearance	36
	294.-299.	Reserved	36
CHAPTER 3.		TAKEOFF & LANDING MINIMUMS	
	300.	Application	37
	301.-309.	Reserved	37
Section 1.		General Information	37
	310.	Establishment	37
	311.	Publication	37
	312.-319.	Reserved	37
Section 2.		Altitudes	37
	320.	Minimum Descent Altitude (MDA)	37
	321.	MDA for Straight-In Approach	37
	322.	MDA for Circling Approach	37
	323.	Minimums Adjustments	37
	324.	Decision Height (DH)	38
	325.-329.	Reserved	38
Section 3.		Visibilities	38
	330.	Establishment of Visibility Minimums	38
	331.	Effect of HAT/HAA and Facility Distance on Straight-In and Circling Visibility Minimums	39
	332.	Effect of Obstacles	40
	333.	Runway Visual Range (RVR)	40

334.	Runway Requirements for Approval of RVR	40
335.	Comparable Values of RVR and Ground Visibility	40
336.-339.	Reserved	40
Section 4.	Visibility Credit for Lights	40
340.	General	40
341.	Standard Lighting Systems	40
342.	Operational Conditions	40
343.	Visibility Reduction	41
344.	Other Lighting Systems	42
345.-349.	Reserved	42
Section 5.	Standard Minimums	42
350.	Standard Straight-In Minimums	42
351.	Standard Circling Minimums	42
352.-359.	Reserved	42
Section 6.	Alternate Minimums	42
360.	Standard Alternate Minimums	42
361.-369.	Reserved	42
Section 7.	Departures	42
370.	Standard Takeoff Minimums	42
371.-399.	Reserved	44-1
CHAPTER 4.	ON-AIRPORT VOR (NO FAF)	
400.	General	45
401.-409.	Reserved	45
Section 1.	Low Altitude Procedures	45
410.	Feeder Routes	45
411.	Initial Approach Segment	45
412.	Intermediate Segment	45
413.	Final Approach Segment	45
414.	Missed Approach Segment	47
415.-419.	Reserved	47
Section 2.	High Altitude Teardrop Penetrations	47
420.	Feeder Routes	47
421.	Initial Approach Segment	47
422.	Intermediate Segment	47
423.	Final Approach Segment	47

424.	Missed Approach Segment	49
425.-429.	Reserved	49
CHAPTER 5.	TACAN, VOR/DME, AND VOR WITH FAF	
500.	General	51
501.-599.	Reserved	51
Section 1.	VOR with FAF	51
510.	Feeder Routes	51
511.	Initial Approach Segment	51
512.	Intermediate Approach Segment	51
513.	Final Approach Segment	51
514.	Missed Approach Segment	55
515.-519.	Reserved	56
Section 2.	TACAN and VOR/DME	56
520.	Feeder Routes	56
521.	Initial Segment	56
522.	Intermediate Segment	56
523.	Final Approach Segment	56
524.	Missed Approach Segment	57
525.-599.	Reserved	57
CHAPTER 6.	NDB PROCEDURES, ON-AIRPORT FACILITY, NO FAF	
600.	General	59
601.-609.	Reserved	59
Section 1.	Low Altitude Procedures	59
610.	Feeder Routes	59
611.	Initial Approach Segment	59
612.	Intermediate Segment	59
613.	Final Approach Segment	59
614.	Missed Approach Segment	61
615.-619.	Reserved	61
Section 2.	High Altitude Penetrations	61
620.	Feeder Routes	61
621.	Initial Approach Segment	61
622.	Intermediate Segment	61
623.	Final Approach Segment	61
624.	Missed Approach Segment	63
625.-699.	Reserved	63

CHAPTER 7. NDB WITH FAF

700. General 65
701.-709. Reserved 65

Section 1. NDB with FAF 65

710. Feeder Routes 65
711. Initial Approach Segment 65
712. Intermediate Approach Segment 65
713. Final Approach Segment 65
714. Missed Approach Segment 68
715.-799. Reserved 68

CHAPTER 8. VHF/UHF DF PROCEDURES

800. General 71
801.-809. Reserved 71

Section 1. VHF/UHF DF Criteria 71

810. En Route Operations 71
811. Initial Approach Segment 71
812. Intermediate Approach Segment 72
813. Final Approach Segment 72
814. Missed Approach Segment 73
815.-819. Reserved 73

Section 2. Communications 73

820. Transmission Interval 73
821.-829. Reserved 73

Section 3. Minimums 73

830. Approach Minimums 73
831.-899. Reserved 73

CHAPTER 9. INSTRUMENT LANDING SYSTEM (ILS)

900. General 75
901. Definition of Types 75
902.-909. Reserved 75

Section 1.		ILS Category I Components	75	
	910.	System Components	75	
*	911.	Compass Locator (LOM, LMM)	75	*
	912.	Distance Measuring Equipment (DME)	75	
*	913.	Inoperative Components	75	*
	914.-919.	Reserved	75	
Section 2.		ILS Category I Criteria	75	
	920.	Feeder Routes	75	
	921.	Initial Approach Segment	75	
	922.	Intermediate Segment	76	
	923.	Descent Gradient	76	
	924.	Altitude Selection	76	
	925.-929.	Reserved	76	
Section 3.		ILS Category I Final Approach	77	
*	930.	Final Approach Segment	77	*
	931.	Final Approach Obstacle Clearance Surface	77	
	932.	Transitional Surfaces	77	
	933.	Deleted	78	
	934.	Obstacle Clearance Outside the DH Point	78	
*	935.	Obstacle Clearance Inside the DH Point	78	*
	936.	Glide Slope	78	
	937.	Relocation of Glide Slope	80	
	938.	Decision Height	80	
	939.	Reserved	80	
Section 4.		ILS Category I Missed Approach	81	
	940.	Missed Approach Segment	81	
	941.	Missed Approach Point (MAP)	81	
	942.	Straight Missed Approach	81	
	943.	Turning Missed Approach	81	
	944.	Missed Approach Obstacle Clearance	82	
	945.	Combination Straight and Turning Missed Approach Area	82	
	946.-949.	Reserved	82	
Section 5.		Localizer and LDA	82	
	950.	Feeder Routes, Initial Approach, and Intermediate Segments	82	
	951.	Use of Localizer Only	83	
	952.	Alignment	83	
	953.	Area	83	
	954.	Obstacle Clearance	84	

	955.	Descent Gradient	84
	956.	Minimum Descent Altitude	84
	957.	Missed Approach Segment	84
	958.-959.	Reserved	84
Section 6.		ILS Category II	84
	960.-969.	Reserved	84
Section 7.		ILS Category III	84
	970.-979.	Reserved	84
Section 8.		Reserved	84
	980.-989.	Reserved	84
Section 9.		Simultaneous ILS Procedures	84
	990.	General	84
	991.	System Components	84
*	992.	Inoperative Components	84 *
	993.	Feeder Routes	84
	994.	Initial Approach Segment	84
	995.	Intermediate Approach Segment	85
	996.	Final Approach Segment	85
*	997.	Final Approach Course Standards	85
	998.	Missed Approach Segment	85
	999.	Reserved	85 *
CHAPTER 10.		RADAR PROCEDURES	
	1000.	General	87
	1000.-1009.	Reserved	87
Section 1.		Precision Approach Radar (PAR)	87
	1010.	System Components	87
	1011.	Inoperative Components	87
	1012.	Lost Communication Procedures	87
	1013.	Feeder Routes and Initial Approach Segments	87
	1014.	Intermediate Approach Segment	87
	1015.	Descent Gradient	87
	1016.	Altitude Selection	88
	1017.-1019.	Reserved	88

Section 2.	PAR Final Approach	88
1020.	Final Approach Segment	88
1021.	Final Approach Obstacle Clearance Surface	88
1022.	Transitional Surfaces	89
1023.	Deleted	89
1024.	Obstacle Clearance Outside the DH Point	89
1025.	Obstacle Clearance Inside the DH Point	89
1026.	Glide Slope	89
1027.	Relocation of Glide Slope	90
1028.	Decision Height (DH)	90
1029.	Reserved	90
Section 3.	PAR Missed Approach	90
1030.	Missed Approach Segment	90
1031.	Missed Approach Point (MAP)	90
1032.	Straight Missed Approach	90
1033.	Turning Missed Approach	92
1034.	Missed Approach Obstacle Clearance	92
1035.	Combination Straight and Turning Missed Approach	93
1036.-1039.	Reserved	93
Section 4.	Airport Surveillance Radar (ASR)	93
1040.	General	93
1041.	Initial Approach Segment	93
1042.	Intermediate Approach Segment	95
1043.	Altitude Selection	96
1044.	Final Approach Segment	96
1045.	Deviation from Established Radar Patterns	98
1046.	Radar Monitor	98
1047.	Lost Communication Procedures	98
1048.	Missed Approach Segment	98
1049.	Reserved	98
Section 5.	Simultaneous PAR Procedures	98
1050.	General	98
1051.-1059.	Reserved	98
Section 6.	Airborne Radar Procedures	98
1060.	General	98
1061.-1099.	Reserved	98

CHAPTER 11. HELICOPTER PROCEDURES

Section 1. Administrative 99

1100. General 99
1101. Terminology 99
1102. Deleted 99
1103. Type of Procedure 99
1104. Facilities for which Criteria are not Provided 99
1105. Procedure Identification 99

Section 2. General Criteria 99

1106. Application 99
1107. Point in Space Approach 100
1108. Approach Categories 100
1109. Procedure Construction 100
1110. Descent Gradient 100
1111. Initial Approach Segments Based on Straight Courses and Arcs with Positive Course Guidance 100
1112. Initial Approach Based on a Procedure Turn 100
1113. Intermediate Approach Segment Based on Straight Courses 101
1114. Intermediate Approach Segment Based on an Arc 101
1115. Intermediate Segment within a Procedure Turn Segment 101
1116. Final Approach 101
1117. Missed Approach Point 101
1118. Straight Missed Approach Point 101
1119. Straight Missed Approach Obstacle Clearance 102
1120. Turning Missed Approach Area 102
1121. Turning Missed Approach Obstacle Clearance 102
1122. Combination Straight and Turning Missed Approach 102
1123. Holding Alignment 102
1124. Holding Area 102

Section 3. Takeoff and Landing Minimums 102

1125. Application 102
1126. Altitudes 102
1127. Visibility 102
1128. Visibility Credit 103
1129. Takeoff Minimums 104

Section 4.	On-Heliport VOR (No FAF)	104
1130.	General	104
1131.	Initial and Intermediate Segments	104
1132.	Final Approach Segment	104
Section 5.	TACAN, VOR/DME, and VOR with FAF	104
1133.	Final Approach Segment	104
1134.	Reserved	104
1135.	Missed Approach Point	104
1136.	Arc Final Approach Segment Radius	105
1137.	Arc Final Approach Segment Alignment	105
1138.	Reserved	105
Section 6.	On-Heliport NDB, No FAF	105
1139.	General	105
1140.	Final Approach Segment	105
Section 7.	NDB Procedures with FAF	106
1141.	General	106
1142.	Final Approach Segment	106
1143.	Missed Approach Point	106
Section 8.	Reserved	106
1144.-1149.	Reserved	106
Section 9.	ILS Procedures	106
1150.	General	106
1151.	Intermediate Approach Segment	106
1152.	Final Approach Segment	106
1153.	Missed Approach Area	106
1154.	Microwave ILS	106
1155.	Localizer and LDA	106
Section 10.	Precision Approach Radar (PAR)	107
1156.	Intermediate Approach Segment	107
1157.	Reserved	107
1158.	Final Approach Segment	107
1159.	Final Approach Alignment	107
1160.	Final Approach Area	107
1161.	Reserved	107
1162.	Final Approach Obstacle Clearance Surface	107
1163.	Transitional Surfaces	108
1164.	Obstacle Clearance	108

1165.	Glide Slope	108
1166.	Relocation of the Glide Slope	108
1167.	Adjustment of DH	108
1168.	Missed Approach Obstacle Clearance	108
1169.	Straight Missed Approach Area	109
1170.	Turning Missed Approach Area	110
1171.	Combination Straight and Turning Missed Approach Area	110
Section 11.	Airport Surveillance Radar (ASR)	111
1172.	Initial Approach Segment	111
1173.	Intermediate Approach Segment	112
1174.	Final Approach Segment	112
1175.	Missed Approach Point	112
1176.-1199.	Reserved	112
CHAPTER 12.	DEPARTURE PROCEDURES	
1200.	General	113
1201.	Application	113
1202.	Diverse Departures	113
1203.	Departure Routes	114
1204.	Early Turns	122
1205.	Climb Gradients	123
1206.	End of Departure	123
1207.	Published Information	123
1208.	Required Ceiling and Visibility Minimums	124
1209.-1299.	Reserved	124
CHAPTER 13.	RESERVED	125
CHAPTER 14.	SIMPLIFIED DIRECTIONAL FACILITIES (SDF) PROCEDURES	
1400.	General	137
1401.-1409.	Reserved	137
1410.	Feeder Routes	137
1411.	Initial Approach Segment	137
1412.	Intermediate Approach Segment	137
1413.	Final Approach Segment	137
1414.	Missed Approach Segment	138
1415.	Back Course Procedures	138
1416.-1499.	Reserved	138

* CHAPTER 15.	AREA NAVIGATION (RNAV)	
1500.	General	15-1
1501.	Terminology	15-1
1502.	Procedure Construction	15-2
1503.	Identification of RNAV Instrument Approach Procedures (IAP)	15-6
1504.	Reference Facilities	15-6
1505.	Waypoints	15-6
1506.	RWY WP and APT WP	15-7
1507.	Holding	15-7
1508.-1509.	Reserved	15-7
Section 1.	En Route Criteria	15-7
1510.	En Route Obstacle Clearance Areas	15-7
1511.	Obstacle Clearance	15-11
1512.	Feeder Routes	15-11
1513.-1519.	Reserved	15-12
Section 2.	Terminal Criteria	15-12
1520.	Term Turning Area Expansion	15-12
1521.	Initial Approach Segment	15-13
1522.	Intermediate Segment	15-15
1523.	Final Approach Segment	15-16
1524.-1529.	Reserved	15-18
Section 3.	Missed Approach	15-18
1530.	General	15-18
1531.	Missed Approach Segment	15-18
1532.	Missed Approach Point	15-19
1533.	Straight Missed Approach	15-19
1534.	Turning Missed Approach	15-21
1535.	Combination Straight and Turning Missed Approach	15-21
1536.	Clearance Limit	15-24
1537.-1539.	Reserved	15-24
Section 4.	Approach Minimums	15-24
1540.	Approach Minimums	15-24
1541.-1599.	Reserved	15-24 *
CHAPTER 16.	RESERVED	171

CHAPTER 17. ENROUTE CRITERIA

1700.-1709. Reserved 173

Section 1. VHF Obstacle Clearance Areas 173

1710. Enroute Obstacle Clearance Areas 173
1711. Primary Areas 173
1712. Secondary Areas 173
1713. Turning Area 174
1714. Application of Turning Area Criteria 175
1715. Turn Area Template 175
1716. Changeover Points (COP) 178
1717. Course Change Effect 179
1718. Minimum Enroute Instrument Altitudes (MEA) 179
1719. Protected Enroute Areas 180

Section 2. VHF Obstacle Clearance 180

1720. Obstacle Clearance, Primary Area 180
1721. Obstacle Clearance, Secondary Areas 180
1722. Obstacle Clearance Graph 181
1723.-1729. Reserved 182

Section 3. Altitudes 182

1730. Minimum Crossing Altitudes (MCA) 182
1731. Enroute Minimum Holding Altitudes 183
1732.-1739. Reserved 183

Section 4. Navigational Gaps 183

1740. Navigational Gap Criteria 183
1741.-1749. Reserved 185

Section 5. Low Frequency Airways or Routes 185

1750. LF Airways or Routes 185
1751.-1759. Reserved 186

Section 6. Minimum Divergence Angles 186

1760. General 186
1761. VHF Fixes 186
1762. LF or VHF/LF Fixes 187
1763.-1799. Reserved 187

Appendix 1. (3 Pages)

1. Appendix Application 1
2. Glossary 1

Appendix 2. (17 Pages)

1. Secondary Areas 1
2. Secondary Area Obstacle Problems 1
3. Width of Intermediate Approach Secondary Area 1
4. Intermediate Secondary Area Obstacle Clearance 1
5. Initial Secondary Area Obstacle Clearance 1
6. Width of Final Approach Secondary Area 1
7. Final Approach Secondary Area Obstacle Clearance 5
8. VHF/UHF DF and High Altitude Penetrations 6
9. Computing Glide Slope Threshold Crossing Height 6
10. Computation of GPI when TCH is Known 10
* 11. Application of ILS/PAR Obstacle Clearance Criteria . . . . . 11 *
12. Analysis of Obstacle Clearance 14

Appendix 3. (2 Pages)

1. References 1

Appendix 4. (5 Pages)

1. Table of Tangents 1

Appendix 5. (7 Pages)

1. Approach Lighting Systems 1
2. Nonstandard Systems 1
3. ALSF-1 1
4. ALSF-2 2
5. SALS 3
6. SSALS, SSALF, and SSALR 3
7. MALS, MALSF, and MALSR 4
8. ODALS 5
9. LDIN 6
10. REIL 7
12. MIRL 7
13. TDZ/CL 7

Appendix 6. (21 Pages)
