OFFICE OF THE SECRETARY
WASHINGTON, D. C. 20350

SECNAVINST 5310.15
Op-120F
23 November 1979

SECNAV INSTRUCTION 5310.15

From: Secretary of the Navy

Subj: Defense Manpower Requirements Report (DMRR)

Encl: (1) DOD Instruction 1110.1 of 28 Jun 1979

1. Purpose. To provide guidance and assign responsibilities concerning the preparation of inputs to the Defense Manpower Requirements Report (DMRR) within the Department of the Navy.
2. Background. Enclosure (1) prescribes responsibilities and procedures for the observance of all military services for preparation of the annual DMRR and related Annexes. Enclosure (1) provides specific guidance concerning component parts of the basic DMRR document as well as the separately published Unit Annex and Base Structure Annex.
3. Discussion. Annually the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics) develops a list of points of contacts within the Office of the Secretary of Defense (OSD) and the services to develop the DMRR within the time schedule required by enclosure (1). The service points of contact provide successive narrative drafts and updated quantitative data to OSD action officers. Within the Department of the Navy, overall approval authority for Departmental quantitative and qualitative inputs to the DMRR and Annexes is vested in the Assistant Secretary of the Navy (Manpower, Reserve Affairs and Logistics). The Office of the ASN(M,RA&L) is the designated point of contact for the DMRR and related Annexes, and will provide required policy guidance to designated service action officers as provided for below and is responsible for ensuring that respective service inputs accurately reflect the Department of the Navy position on overall Navy policy and programs.
4. Responsibility. The Chief of Naval Operations (CNO) and the Commandant, U.S. Marine Corps (CMC) are responsible for supplying end strength and other quantitative data for the DMRR and Annexes and for preparing narrative inputs for explanation of the relationships between recommended strength levels and national security policies, and covering manpower requirements determination and significant trends. The DMRR input should reflect Department of the Navy policy and initiatives consistent with Secretary of the Navy Planning and Program Guidance and Annual Management Guidance.

5. Action

a. As required by enclosure (1) and the annual OSD guidance memorandum, the CNO and the CMC will each designate a single individual to serve as the principal action officer within their respective service to act on their behalf for coordination and submission of DMRR inputs. Separate action officers for the Unit Annex and the Base Structure Annex may be designated to facilitate coordination with OSD action officers.

b. Designated action officers within each service are authorized to conduct continuing direct liaison with responsible officials within the Office of the Secretary of Defense regarding DMRR requirements and procedural matters. Service principal action officers are responsible for keeping the Office of the ASN(M,RA&L) adequately informed of progress and significant developments and for the submission of the preliminary narrative and comments on the draft DMRR for Secretarial-level approval on a timely basis. Maximum coordination of service inputs will be effected to ensure Department of Navy policy and programs are portrayed on an accurate, balanced, and integrated basis.

6. Report. Symbol DD-M (A) 1514 (1110) has been assigned to the requirement contained in enclosure (1). This report is approved for two years only from the date of this directive.

NUMBER 1110.1

Department of Defense Instruction ^{ASD(MRA&L)}

SUBJECT: Defense Manpower Requirements Report (DMRR)

Reference: (a) Title 10, United States Code, Section 138(a)(3)

A. PURPOSE

This Instruction prescribes responsibilities and procedures for preparation of inputs to the Defense Manpower Requirements Report (DMRR) required by reference (a).

B. APPLICABILITY

The provisions of this Instruction apply to the Office of the Secretary of Defense, the Military Departments, and the Defense Agencies (hereafter referred to as "DoD Components"). The term "Military Services," as used herein, refers to the Army, the Navy, the Air Force, and the Marine Corps.

C. RESPONSIBILITIES

1. General

a. Pursuant to 10 U.S.C. 138(c)(3) (reference (a)), the Secretary of Defense will submit the DMRR to the Congress no later than February 15 of each fiscal year. The report will include the DoD annual manpower requests for active military, Selected Reserve, and civilian end strengths, together with justification for the strength levels recommended, an explanation of the relationships between strength levels and national security policies, and separate detail on bases and units. Enclosure 1 cites basic authorities applicable to DMRR preparation.

b. The Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) (ASD(MRA&L)) will develop an overview of requirements and major manpower changes in the Auxiliary, Support Activities and Individuals Defense Planning and Programming Categories (DPPC), soliciting inputs from other OSD offices as required. The ASD(MRA&L) also will be responsible for such special reports, analyses, and annexes as are necessary or relevant to the understanding of the defense manpower program and for assembly and submission of the completed report.

c. The ASD(MRA&L) and the Assistant Secretary of Defense (Program Analysis and Evaluation) (ASD(PA&E)) will develop an overview of national security policy as it relates to the defense manpower program and will also prepare submissions concerning the Strategic and Tactical/Mobility categories reflecting requirements and major manpower changes in these categories.

Enclosure (1)

d. All other OSD offices will prepare DMRR inputs and review staff drafts as requested by the ASD(MRA&L).

e. Each DoD Component shall be responsible for developing and submitting to the ASD(MRA&L) quantitative and narrative inputs to the DMRR. These inputs will be submitted in the form and schedule as specified herein, supplemented by specific instructions covering requirements applicable to a particular submission. Strength requirements will be arrayed using the DPPCs and will reflect end strengths, unless otherwise specified by the ASD(MRA&L).

2. Report Content. The DMRR will be organized in three major parts, plus two annexes as shown at enclosure 2 and described below.

a. Part A - Defense Manpower Requirements. Chapter I provides an introduction to the report. Chapter II summarizes the report. Chapter III is a brief overview of national security policy and its relationship to the Defense manpower program. Chapters IV through the end of Part A describe manpower requirements for each major DPPC across all Military Services. Major changes in manpower associated with each category are explained.

b. Part B - Manpower Requirements by DoD Components. This part contains chapters prepared by each Military Service and reviewed by the ASD(MRA&L). It also contains a summary chapter based on Defense Agency inputs. The general outline for each Service chapter is provided at enclosure 3.

c. Part C - Special Analyses. This part contains any special analyses related to the Defense manpower program. These are included for special congressional interest items; such as, cost of manpower and women in the Military Services.

d. Base Structure Annex. 10 U.S.C. 138(a)(3) (reference (a)) requires the DMRR submission to include a Base Structure Annex. This annex, which is prepared by the ASD(MRA&L) with Service inputs:

(1) Identifies, defines, and groups by mission and by region the various DoD installations and facilities;

(2) Identifies the base operating support costs and explains and justifies the relationship between the base structure and the proposed military force structures; and

(3) Includes information on historical trends of the base structure and data on the size and population of the installations. An outline of Service inputs is provided at enclosure 5. The Base Structure Annex is provided to the Congress at the same time as the DMRR.

Jun 28, 79
1110.1

e. Unit Annex. Each Military Service will prepare a unit annex to the DMRR that describes the planned allocation of manpower for specific units within the force. The unit annex will consist of a listing by DPPC for active and reserve military and civilian manpower strengths and forces by major unit for the prior year, current year, and budget year in the format shown at enclosure 6. The unit annex may be classified. It will be consolidated by the ASD(MRA&L) and provided to the Congress at the same time as the DMRR.

E. ADMINISTRATION

1. The DMRR will be submitted to the Congress on or before the statutory reporting date of February 15 of each year. The report will support the President's Budget and be based on manpower detail reflected in the associated Five Year Defense Program.

2. All material in the DMRR with the exception of the unit annex must be unclassified. Do not submit classified material for inclusion in the report other than the unit annex.

3. Submit an original and six copies in double-spaced draft, except for the Base Structure Annex for which only two draft copies are required. Final submissions for incorporation in the Base Structure Annex will be provided in an original and two copies, single spaced and typed with Courier 10 IBM font. A general submission schedule is provided at enclosure 7.

4. The DMRR will include an explanation of resource and structural changes to the DPPC. In implementing and reporting structural changes (activities/resources transferred from one DPPC to another) it is important that they be applied consistently for all years. Whereas the explanation for year-to-year resource changes will be contained in the text that accompanies the manpower tables within each chapter, the structural changes will be provided in an audit-trail form as shown at enclosure 4.

5. In Service chapters, any visible year-to-year increase or decrease in a DPPC subcategory must be explained clearly and where appropriate, be related to changes in force levels. Change explanations in the text will make reference to the structural change audit trail as appropriate.

6. Portrayal in the DMRR of undistributed spaces, such as a Force Structure Deviation (PE 887220) is prohibited. The DMRR tables depicting strength by DPPC will display only the actual strength distribution for the end of the prior fiscal year and the projected strength distribution for the budget and program years.

7. The preliminary draft of the Service chapters in Part B will be provided by proponents with force and deployment tables minus manpower numbers.

8. Additional guidance on changes to scheduling, formats, and content will be furnished annually in early November, based upon Presidential, congressional, or departmental decisions.

F. INFORMATION REQUIREMENT

The reporting requirements of this Instruction have been assigned Reports Control Symbol DD-M(A)1514.

G. EFFECTIVE DATE AND IMPLEMENTATION

This Instruction is effective immediately. Forward two copies of implementing instructions to the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) within 120 days.

ROBERT B. PIRIE, JR.

**Assistant Secretary of Defense
(Manpower, Reserve Affairs & Logistics)**

1110.1 (Encl 1)

BASIC AUTHORITIES APPLICABLE DEFENSE MANPOWER REQUIREMENTS REPORT

1. 10 U.S.C. 138(c)(3) (reference (a)):

"The Secretary of Defense shall submit to the Congress a written report, no later than February 15 of each fiscal year, recommending the annual active duty end strength level for each component of the armed forces for the next fiscal year and the annual civilian personnel end strength level for each component of the Department of Defense for the next fiscal year, and shall include in that report justification for the strength levels recommended and an explanation of the relationship between the personnel strength levels recommended for that fiscal year and the national security policies of the United States in effect at the time. . . Such report shall also identify, define, and group by mission and by region the types of military bases, installation and justification of the relationship between this base structure and the proposed military force structure together with a comprehensive identification of base operation support costs and an evaluation of possible alternatives to reduce such costs."

2. Senate Armed Services Committee Report 93-385:

"To assist in its review of the Reserve Components, Committee requests that the Defense Department provide a report on the FY 75 and future Reserve manpower requests at the same time and in the same format as the statutory report on requested active duty strengths." (This requirement has been incorporated into the DMRR).

"Committee feels that the following change should be incorporated in the manpower report: addition of an annex which shows the year-to-year changes in the planned allocation of the manpower authorized in each major category to the working level units performing the various missions of the category. This would include the number of units of each type in each category and the allocation of manpower to them."

3. House Armed Services Committee Report 93-1035:

"Beginning with FY 1976, the strength authorizations for each Reserve Component should include the three major elements of (1) Full TOE, (2) manning level authorization and (3) strength estimate for the year for appropriation purposes."

"Each year the OSD request for strength authorization should specify all three of the pertinent numbers, and specifically address any significant structure or unit changes proposed for the fiscal year within the TOE level."

4. Senate Armed Service Committee Report 95-129:

"The statutory Military Manpower Training Report and the Base Structure Annex to the Manpower Requirements Report, which was submitted this year for the first time, also are important to the committee's assessment of the Department of Defense manpower request. Both of these reports should include more historical data on trends in training programs, training manpower, and the base structure and related manpower. The Base Structure Annex should group the military installations in the report according to their personnel and geographic size."

OUTLINE FOR SERVICE INPUT TO BASE STRUCTURE ANNEX

Service input chapter for the Base Structure Annex will follow this general outline:

CHAPTER (Army-TWO; Navy-THREE; AF-FOUR; Marine Corps-FIVE)

(Service) BASE STRUCTURE

- I. INTRODUCTION
- II. BASE STRUCTURE OVERVIEW
- III. RELATIONSHIP OF BASE STRUCTURE TO FORCE STRUCTURE
- IV. BASE OPERATIONS COSTS FOR FY- (Budget Year)
- V. ACTIONS TO REDUCE ANNUAL BASE OPERATIONS COSTS
- VI. (Service) BASE STRUCTURE

Part 1 - List by IDPP category, alphabetically by geographic area within IDPP category.

Part 2 - List by IDPP category, in descending order of number of personnel within IDPP category.

Part 3 - List by IDPP, in descending order of total land area within IDPP category.

- NOTES:
1. Base operations cost in Section IV will be included in TABLES VI (Army), VIII (Navy), X (Air Force) and XII (Marine Corps) in the format at attachment 1.
 2. A summary of the number of installations, activities and properties will be included in Section VI as TABLES VII (Army), IX (Navy), XI (Air Force) and XIII (Marine Corps) in the format at attachment 2.
 3. The format for the Service base structure in SECTION VI is contained in attachment 3.
 4. In SECTION VI under each IDPP the subgroupings are FIFTY STATES, TERRITORIES AND POSSESSIONS, and FOREIGN OVERSEAS AREAS. Under these, the States, territories and possessions, and foreign countries are listed alphabetically and under each of these sub-groupings the installations are listed alphabetically in Part 1, in descending order of number of personnel in Part 2, and in descending order of total land area in Part 3.

Attachments - 3

GENERAL SUBMISSION SCHEDULE FOR THE DEFENSE MANPOWER REQUIREMENTS REPORT
(in sequence)

November

- Annual DMRR guidance memorandum with specific schedule issued by ASD(MRA&L).

December

- Preliminary draft provided by proponents with narrative, force and deployment tables and audit trail of structural changes that were incorporated in the October FYDP update.
- Comments on drafts returned to proponents.

January

- Components submit to ASD(MRA&L): Service manpower tables by DPPC reflecting President's Budget; updated audit trails portraying structural changes incorporated in January FYDP update; and completed chapters.
- Draft DMRR distributed to DoD Components by ASD(MRA&L).
- Comments on draft DMRR submitted by DoD Components to ASD(MRA&L).

February

- "Numbers check" draft DMRR distributed to DoD Components by ASD(MRA&L).
- Unit Annex submitted by services to ASD(MRA&L).
- Base structure Annex completed by ASD(MRA&L).
- Report approved by ASD(MRA&L).
- Security review by ASD(PA).
- Report to printer.
- Report distributed.
